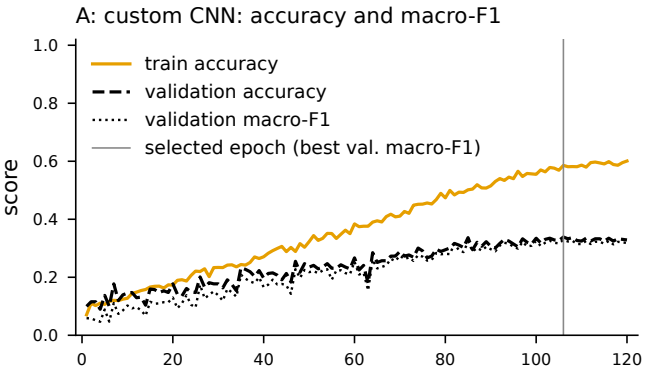
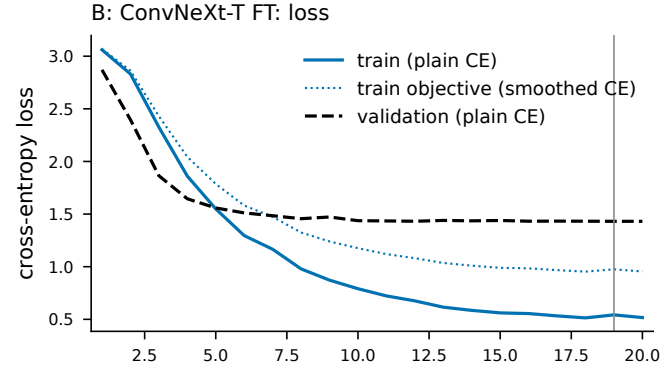
A: custom CNN: loss
cross-entropy loss
train (plain CE)
train objective (smoothed CE)
validation (plain CE)



A: custom CNN: accuracy and macro-F1
score
train accuracy
validation accuracy
validation macro-F1
selected epoch (best val. macro-F1)



B: ConvNeXt-T FT: loss
cross-entropy loss
train (plain CE)
train objective (smoothed CE)
